

## 2 DAY NIGHT VISION SYSTEMS CONFERENCE & EXPO

Produced by

Registration is now open for NightCon 2013, a 2 Day - Night Vision Systems Conference and Expo on September 19 & 20, 2013 in Dallas, TX.

Join the experts of the NVIS Community for this unprecedented two-day interactive event. The purpose is to present a venue in which industry professionals can obtain information, education, and guidance on Night Vision Systems implementation, operations, and maintenance issues. The event will be held over a two-day period providing an open session, panel forums, vendor displays, and educational presentations.

### CONFERENCE HIGHLIGHTS

- Today's subject matter experts will engage in day-to-day NVIS issues to include FAA, CAA, and NVIS subject matter experts.
- Lectured topics on NVIS operational and maintenance issues. Get the facts!
- Panel discussions with FAA and NVIS subject matter experts regarding issues that affect the NVIS community with question and answer opportunities.
- Opportunities for end users to interact with product and service vendors.
- Catered luncheon included.
- Day 2 - Educational Tracks designed to facilitate face-to-face discussions with NVIS regulators and subject matter experts. Educational Tracks include:
  - NVIS Operator Program Mgmt Course (8 hours)
  - NVIS Maintenance Program Mgmt Course (8 hours)
  - NVG Initial Pilot Ground School (8 hours)
  - NVG Instructor Pilot Ground School (8 hours)
  - NVG Inspection and Repair (4 hours)
  - Enhanced Visual Systems (EVS) (4 hours)
