# WHITE PHOSPHOR TRADE-UP PROGRAM

## TRADE-UP TO THE LATEST NVGS

White phosphor NVGs, the latest breakthrough in image intensification, produces a greyscale image that offers many benefits over the traditional green phosphor. The white phosphor image engages a more significant portion of your eye's receptors, which give your brain **more visual information to make quick, life-saving decisions.**

Save on your new white phosphor night vision goggles by trading in your existing NVGs. ASU's Trade-Up Program makes it easy to **trade-in eligible goggles and receive your new White Phosphor NVGs for a discounted price of just \$10,665.**

ASU accepts trade-in on many AN/AVS-9 and AN/AVS-6 NVGs from L3, Harris, ITT, and Exelis that pass a 180-day inspection.

## WHITE PHOSPHOR BENEFITS

- More of your eye's receptors working to your advantage
- Less eye strain and fatigue
- Enhanced low light and high light performance
- Improved transition between low and high light environments
- Reduced halo
- Improved depth perception
- Better clarity and image quality
