

Hoffman 126-A Test Set Calibration Service

AVIATION SPECIALTIES UNLIMITED, INC.
+1.208.426.8117 | WWW.ASU-NVG.COM
AN ISO 9001:2015 COMPANY

Having your NVG test set calibrated and ready to test ensures your operators are safe and mission ready. With Aviation Specialties Unlimited **quick-turn, test set calibration service**, you can have your annual calibration accomplished and your test set back **in one week or faster** with service at your location.

CALIBRATION ON YOUR SCHEDULE

Annual Test Set Calibration

Annual calibration of the Hoffman ANV-126A Test Set is a manufacturer recommendation. Calibration includes seals and associated documents.

Save with a Service Agreement

A 3-year service agreement for your calibration is a simple way to save and stay current. Save even more for two or more units.

Schedule Calibration Today!

Contact your ASU Territory Manager to schedule your calibration at our location or yours. Minimize downtime by scheduling calibration at your location, during your recurrent maintenance training.

Visit asu-nvg.com/ra to request return authorization.

MINIMAL DOWNTIME

ASU is committed to returning your test set in one week of receipt at ASU in Boise, Idaho for U.S. and Canadian customers. Or, get same-day service at your location. *Travel fees extra.

NAME		DESCRIPTION
CALIBRATION		HOFFMAN 126A TEST SET CALIBRATION SERVICE
