

Custom Aircraft Modification

ASU^{INC.}

TYPICAL STC MINOR AMENDMENT TIMELINE

Customer to Provide

1. Purchase Order
2. Down Payment
3. Pre NVIS install form and associated documents & photos
4. Preliminary install schedule

Customer Design Approval

Customer to review and approve the ASU custom design and confirm install schedule

Start of ASU Install

ASU's certified NVIS installation technicians modify the aircraft at your location

ASU Design

ASU produces a custom design with drawings and configurations for customer and submits a letter to the FAA

ASU Custom Kit Production

ASU manufactures and acquires all the parts for your custom NVG compatible aircraft modification

**Starts after customer approval*

ASU Works with FAA and Designee

ASU works with the FAA and designee for STC approval

**Timing depends on major/minor modification – Approval and Return to Service (RTS) times are dependent on FAA schedules and may fluctuate*
